

INPRINT GROUP

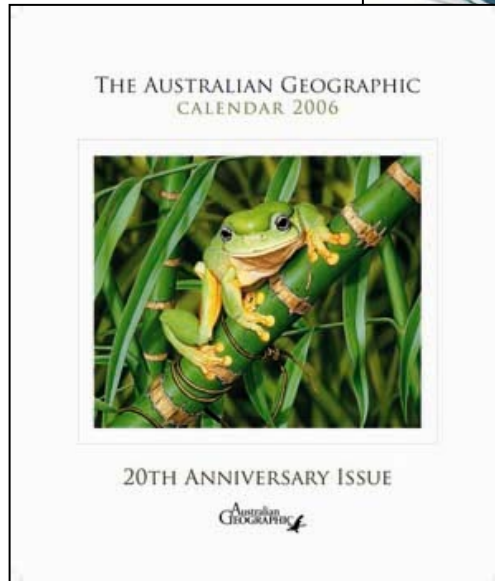

# PiCA Performance

at the 2005 Printing Industries Craftsmanship Awards

Inprint Group companies were major winners of awards once again this year at the 2005 Printing Industries Craftsmanship Awards presentation night, held on Friday 11th November in Brisbane. This achievement was confirmed by Hans Oerlemans, National Sales Manager, Inprint who reported, "In total we received twelve awards...four gold, four silver and four bronze."

Kevin Rodda, CEO Inprint Group commended the performances of Bolton Print calling it "an outstanding achievement in winning gold, silver, bronze in the Regional Printer category as well as winning gold up against all Queensland printers in the Postcards/ Greeting Cards category" as well as that of Inpack saying, 'It was pleasing to see them amongst the awards this year in view of the fact that the graphics content of its normal product range is not well suited to winning print awards...however this year's silver award to Inpack recognized the structural complexity involved in the Wool Jumper Pack job."

Rodda also added that despite the ongoing highly competitive nature of the Sydney commercial print market, jobs for Inprint NSW clients received a total of four awards including Inprint's two gold awards.
