

# Hannanprint Victoria Achieves Occupational Health & Safety Accreditation

Hannanprint Victoria is another IPMG Printing company that has also achieved Occupational Health and Safety Management Systems AS/NZS 4801:2001 accreditation this year.

Accomplished in September, this standard covers the Occupation, Health and Safety Management System for Hannanprint Victoria printing, finishing and distributing a range of magazines, catalogues and brochures to publisher requirements.

Having a safe plant and workforce has always been Hannanprint Victoria's key objective and adoption and implementation of this effective occupational health and safety management system will ensure optimal outcomes for the company. Hannanprint Victoria can be confident that they are effectively controlling any potential risks to all persons affected by the organisation's activities, products and services.

The Occupational Health and Safety Accreditation compliments Hannanprint Victoria's existing AS/ NZS 9001:2000 Quality Assurance Accreditation.

Sandra Barker; Quality and Safety Systems Administrator, displays Hannanprint Victoria's Occupational Health and Safety Accreditation.
